THE GAME OF FANTASY BATTLES

In a war-torn fantasy world mighty armies clash in terrifying combat. Massed ranks of troops manoeuvre and attack, massive War Machines unleash their devastating power and mighty Wizards cast earth-shattering spells.

Warhammer enables you to fight out fantastic fantasy battles on your tabletop. The box contains all you need to get started in the Warhammer hobby, including over 100 Citadel Miniatures (64 Goblins and 40 Elves), a 96 page rulebook, a 96 page Bestiary book, a starter scenario booklet and full-colour card buildings.
In the following 72 pages you will find all of the miniatures included in Games Workshop’s new range of miniatures for Warhammer Fantasy Battle. You will notice many changes from the previous catalog. This range is now cast in pewter and most of it will be available in June 1993. You will find packaging details on each page which indicate how many figures come in each blister. Please note, most blisters now contain two figures with the same weapon type which will make it easier for you to complete the fighting units of your choice. Miniatures shipped from Games Workshop to our distributors are in sleeves of 12 blisters. These 12 packs are a specific, fixed assortment containing the widest mix of miniatures possible for a particular code. Many codes contain 24 different miniatures packed 2 to a blister giving 24 different figures per sleeve. Specific mixes of figures or blisters cannot be ordered. All miniatures included in any particular code are in this catalog. As usual all our miniatures are photographed actual size. Most figures use Games Workshop’s plastic slottabases and some have separate plastic shields and weapons. Where this is the case, details are included in the notes box on each page. With the exception of the Undead Cavalry, all of our horses are now plastic as are the new wolves on page 49. All cavalry codes supplied one rider and mount per blister pack.

You will find new items added regularly and catalog pages for new codes will appear in the US Edition of White Dwarf magazine as they are released.

We recommend Citadel Colour Paints for completing the miniatures. These are a water based acrylic which has been specially formulated for painting Citadel Miniatures.

In addition to this catalog, Games Workshop has available a whole series of literature available to help you. These include: the “World of Games Workshop” which gives an overview of the Games Workshop and Citadel Hobby; the “Citadel Miniatures Painting Guide” which takes you through the various stages of miniature preparation and painting; and the “Citadel Miniatures Collectors Guides” which explain briefly the details of most Warhammer armies.

All of the above and the complete line of Citadel Miniatures are available from the US and Canadian Games Workshop stores, participating Chapter Approved Retailers, and all good gaming stores in North America. For a list of stockists in your area, call us at 410-644-1400. We can either mail you a complete list of independent retail stores that stock our product or give you phone numbers of a few stores close to where you live. For those of you that have no retailer stocking our product in your area or cannot seem to find what you are looking for at your local stockist, Games Workshop offers a fast and efficient Mail Order service.

The second part of this catalog, including Warhammer 40K and Epic Space Marine miniatures will be available in August 1993.

This catalog was designed, published and printed in the USA. Games Workshop US would like to thank all those staff that helped to put this catalog together in what seemed like an impossibly short time frame. They are: Brett Abbott, Frank Barich, Cindy Birkelien, Owen Brantham, Pam Chaney, Steve Collins, Richard Ellard, Cincy Geppi, Anthony Johnson, David Kingston, Kent Martin, Chris Parke, Ann Powers, Steve Schiefer, Mike Vain, Erick Watson, Drew Will, Eric Wilmer.

OVER 50 DIFFERENT COLORS OF PAINT SABLE HAIR ED BRUSHES AND SPRAY PRIMERS
Our product tree listed below is a perfect reference for those choosing a Warhammer army. Once you’ve chosen your army, the next step is to organize the Citadel Miniatures. The product tree shows what army books are available and under each book is a list of the current Citadel Miniatures that correspond to that particular army. Each army box listing shows miniature code, miniature code title and page number that the code is found in the catalog. The miniature listed under the appropriate army book is only race specific. The lists do not include allies. Reference your Warhammer Armies book for details on allies in your army.
